# HOSTING EXTRAS

Boost your website's speed, security, and reliability with our powerful add-ons. Protect your site from cyber threats with DDoS Protection and give your visitors the best experience with faster load times worldwide with our CDN.

## DDoS Protection

Cyberattacks are a growing threat, and a Distributed Denial of Service (DDoS) attack can overwhelm your website with fake traffic, slowing it down or even taking it offline. Our DDoS Protection ensures your site stays online and accessible by filtering out malicious traffic before it reaches your server. This means better security, reliable uptime, and peace of mind—so you can focus on your business without worrying about unexpected downtime.

## CDN (Content Delivery Network)

A Content Delivery Network (CDN) makes your website load faster for visitors no matter where they are in the world. It works by storing copies of your site's content in multiple locations and delivering it from the closest server to each visitor. This not only improves speed but also reduces strain on your main hosting server, helping your site handle more traffic efficiently. Faster load times mean a better user experience, improved search rankings, and higher conversions—making a CDN a smart upgrade for any website.

# HOSTING EXTRAS

Our Website Population & Updates service ensures your content stays fresh, accurate, and engaging, while our Website Insurance gives you peace of mind—if something breaks, we'll fix it, no matter how long it takes or how complex the issue.

## Website Population & Updates

Keeping your website fresh, functional, and up to date can be time-consuming. Our Website Population & Updates package ensures your site remains current with regular content updates, blog posts, product additions, pricing adjustments, and promotional changes. From routine maintenance to seasonal refreshes, we handle the updates so you can focus on running your business.

The cost of this service is priced on the volume of updates required each month and whether content needs to be created as well as populated. We'll discuss your specific needs and confirm a price that works for you.

## Website Insurance

Websites can break, plugins can become outdated, and mistakes can happen—but with our Website Insurance service, you're covered. If something goes wrong—whether it's a critical error, a plugin failure, or an accidental mistake—we'll step in and fix it, no matter how long it takes, at no extra cost. This priority, no-hassle service ensures that when issues arise, they're resolved quickly and efficiently, saving you from unexpected repair costs and prolonged downtime.

We'll review the features, functionality and size of your website and provide a tailored quote to protect your business against unexpected issues.

# HOSTING TERMS & CONDITIONS

## 1. Interpretation

The following definitions and rules of interpretation in this clause apply in these terms and conditions:

### 1.1 Definitions:

**Charges:** the charges in respect of the Services set out in the Contract or otherwise agreed in writing between the parties.

**Confidential Information:** all information, whether technical or commercial (including all specifications, drawings and designs, disclosed in writing, on disc, orally or by inspection of documents or during discussions between the parties), where the information is:

(a) identified as confidential at the time of disclosure; or

(b) ought reasonably to be considered confidential given the nature of the information or the circumstances of disclosure.

**Conditions:** these terms and conditions.
